

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

Cancel Claims 1-9.

Add the following:

10. A process of making a compatible thermoplastic molding composition comprising reactive blending, in the melt and in the presence of a transesterification catalyst, a polycarbonate, a vinyl (co)polymer and a hydroxy-containing compatibilizer that is the polymerized reaction product of (a) and (b) wherein

(a) is at least one vinyl monomer that contains no hydroxy groups and where

(b) is a hydroxyl containing monomer conforming to (I)

where R denotes H or C₁-C₄ alkyl, R₁ denotes H, Cl, Br, C₁-C₄ alkyl, cyclohexyl, or C₁-C₄ alkoxy, a is 0 or 1, b is 0 or 1, c is 0 or 1, n is an integer of 0 to 4, and X is an OH group, and wherein vinyl (co)polymer is selected from the group consisting of SAN, ABS, homopolyolefin, homopolymethacrylate, homopolyacrylate and homopolystyrene.

11. The process of Claim 10 wherein the compatibilizer has a weight average molecular weight of 5,000 to 80,000.

12. The process of Claim 10 wherein 2.0 to 5% of (b) is reacted with (a), the percent being relative to the total weight of (a) and (b).
13. The process of Claim 10 wherein vinyl (co)polymer is a homopolymer of a monomer selected from the group consisting of ethylene, propylene, butadiene, vinyl acetate, vinyl benzoate, vinyl isobutylether, acrylamide, methacrylamide, N-methoxy-methyl- methacrylamide, acrylonitrile, methacrylonitrile, acrylic acid ester, methacrylic ester, cyclohexylmethacrylate, styrene and vinyl toluene.
14. The process of Claim 10 wherein (b) is at least one member selected from the group consisting of α -methyl-*p*-hydroxy-styrene, *p*-hydroxystyrene, and *p*-isopropenyl-*o*-cresol.
15. The process of Claim 10 wherein (a) is at least one member selected from the group consisting of styrene, acrylonitrile, acrylate and olefin monomers.
16. The process of Claim 10 wherein compatibilizer is the reaction product of (a) and 0.5 to 50 percent of (b) the percent being relative to the total weight of (a) and (b).
17. The compatible thermoplastic molding composition prepared by the process of Claim 10.
